

product specification  
**Stay Strong**  
**milk drink cocoa**  
lactose free\*

<b>name of the food</b>	high protein and lactose free* milk product made of drinking milk and cocoa, enriched with milk protein and vitamin D, 0.7 % fat in the milk components, ultra heat treated, homogenized * lactose < 0.1 g / 100 g
-------------------------	---

<b>weight / packing</b>	1 l soft packing with screw cap cardboard box number of soft packings per cardboard box: 10
-------------------------	--

<b>lactose intolerance</b>	Lactose intolerance is an intolerance against milk sugar (lactose). Affected people cannot split lactose in its components glucose and galactose in the small intestine. The non-splitting lactose reaches the colon and causes flatulence.
<b>Stay Strong</b>	During the production process of the Stay Strong products the enzyme lactase, that is responsible for the splitting of lactose, is added.

<b>ingredients</b>	drinking <b>milk</b> sugar 1.8 % fat reduced cocoa powder 1.5 % <b>milk protein</b> stabilizer: carragenan lactase vitamin D
--------------------	--

<b>sensory characteristics</b>	appearance: appetizing chocolate brown odour: pleasantly sweet, mild of chocolate consistency: liquid, homogeneous taste: milky, chocolate, pleasantly sweet
--------------------------------	---

<b>GMO</b>	The product is in accordance with the present valid food regulation for identification, authorisation and traceability of genetically modified foodstuff and animal feed (EEC-guidelines 1829/2003 and 1830/2003). Therefore our products are neither genetically modified nor do they contain any ingredients derived from genetic engineering. They are not subject to the GMO requirements for declaration.
------------	--

<b>allergens</b>	milk components: milk protein and lactose*
------------------	--

<b>residues and contaminants</b>	Our extensive monitoring supervises that the product fulfils the present valid German and European food regulation for residues and contaminants.
